Each pack of KM Method Cards contains concise descriptions of 80 Approaches, Methods and Tools for Knowledge Managers and KM Activists. You can use these cards:

1. In KM strategy and planning sessions to brainstorm your implementation possibilities
2. When identifying training needs for your knowledge managers, KM activists, and community coordinators
3. As a quick reference guide to identify useful techniques during KM projects
4. As a starting point to exploring new KM techniques and approaches
5. To raise awareness among operational staff about the possibilities of practical knowledge management

... and probably many more! Let us know how you end up using them!

You can buy our KM Method Cards from www.straitsknowledge.com/store/

Try our new book for more in-depth guidance on 24 of the Method Cards! *KM Approaches, Methods and Tools - a Guidebook*

For training in many of the techniques in the KM Method Cards visit www.straitsknowledge.com/training/
